

Benefits of Having a Library Card

It's Free!

Signing up for your library card is not only quick, it's FREE!
You can enjoy all the benefits of your local library just by signing up.

Free WiFi

Becoming a member of your local library gives you the opportunity to utilize the free WiFi within the facility. Whether it is to work on a school paper or important work project or just to browse the web, all library card holders can take advantage of free WiFi at their local library—either on your own personal device or the branch computers.

Book Recommendations

Love reading but not sure what to read next? Librarians can help in recommending books tailored to your taste and the genres you prefer. Librarians respect your taste and privacy and will not judge you for what you like or don't like. If you are ready for your next great read, but not sure what book to start, ask your local librarian!

Make a Difference in Your Community

Libraries are non-profit organizations and every library card sign-up helps the library gain more funding they can use toward expanding their collections, remodeling facilities, and adding new technology. The more patrons within the community, the more likely donors and government officials are to advocate a larger budget to improve your local library!

Access Digital Content Anytime, Anywhere

With a library card, you can access hoopla, a digital media service that allows you to borrow audiobooks, eBooks, movies, TV, comics, and music on a mobile device, tablet, computer, or other connected device. It's like having your public library at your fingertips.
